~ 3 Reasons You Should Stay Here ~

1 It's Simply Affordable!

If you want to cut down on your expenses while still enjoying the benefit of a comfy bed away from home, we're the solution. Max of 3 roommates.

2 A Spacious Lounge, And 2 Kitchens To Boot

Even other guest houses lack the space, atmosphere, and effort needed to host community events and gatherings like we do. Our community space comes equipped with a projector and all you need to get started. Plus the added benefit of there always being something interesting going on here.

3 Super Close To Sendai Station

While not only being a top-rated guesthouse in Tohoku, we're also rather pleasantly located within a short walking distance from the station. And even better for when the weather's not so nice, we're next to a subway station.

Affordable prices, space for everyone and their mother, a hop and skip from the station - what are you waiting for? We, and some guests from all around the world, are here waiting for you!

"Hostel Kiko? What?"

Built around the idea "Where Global Meets Local" and opening on just June 1st, 2018, we have already become one of the top guesthouses in Tohoku.

A 15-minute walk from the Station, and even closer to the subway, we're proud to host a community space for those from near and far to meet and mingle.
